

Uh huh uh huh uh huh  
Where I'm from it gets dangerous  
Seem like all the guns aimed at us  
Shoot they shots and they miss miss

Where I'm from it gets dangerous  
Seem like all the guns aimed at us  
Shoot they shots and they miss miss  
Ain't no do or die but it gets risky  
It's either you or I I ain't gone risk it  
Where I'm from it gets dangerous  
All these guns aimed at us  
When we react to how you act  
Don't blame me for it

Nigga can't even walk down the block to get some candy  
Scared of the cops plus I got ops tryna blame me  
Day one niggas swapped and I got problems wit my family  
Praying to Allah to give me guidance and understanding  
Understand this we been damaged  
This shit happened exactly the way they planned it  
It's all a game to them and all we doing is playing it ugh  
I can't even buy me a chain without a nigga hating it  
Been like this way before slavery I know it sound crazy  
Soon as we learnt the dollar amount niggas was a slave  
Before this we ain't even count all these fucking chains  
Represented where we came from what we bang for  
And now a days a nigga slave for em to show we came up  
And everyday a nigga wake up we try to make more  
I'm ashamed of it  
Because I'm guilty  
Buying Gucci and Louie to show I'm getting it  
Get into it tryna prove you a shooter  
And kill somebody innocent you ain't shooting for

Where I'm from it gets dangerous  
Seem like all the guns aimed at us  
Shoot they shots and they miss miss  
Ain't no do or die but it gets risky  
It's either you or I I ain't gone risk it  
Where I'm from it gets dangerous  
All these guns aimed at us  
When we react to how you act  
Don't blame me for it
