

Love

Derez De'Shon

Say lately I been in my head right
And that shit been fucking with me like
I wonder what would of happened if I would of did shit different
Like everything like
I mean like everything brah like everything like

How I make niggas richer than me didn't ask for a dime but they ain't
have a penny for me
The whole time I kept it trill being real as can be
The whole time I was feeling like my nigga them eating
The whole time had people telling me niggas greedy yeah
Used my loyalty against me couldn't peep that sneaky shit
Then my love for you had me blind I shoulda seen that shit
I know if dunk was here right now he wouldn't believe this shit
No no no no no no
I hate I gave my all
I hate I gave my heart to this now I'm forever scarred...

Gotta be careful who you love yeah
Cause that love will get you killed and your murderer will be somebody
you love for real
It be the ones you put your trust in that hurt you in purpose
Of this how love supposed to feel
I don't wanna feel it all I rather be all alone
Ain't no live left over here
Show me love if it's real ugh

Hard to trust trust issues make a nigga hard to love
Fighting I don't even know what we arguing for
I get in my feelings I keep bottled up
I know it bothers her all the time
In the back of my mind
I wonder if she really love me or she telling me lies
I wonder if she really for me or she wasting my time
I wonder if she fucked a nigga every time
I hurt her I can't blame her if she did tho
All these hoes I fucked I almost had a kid on her
All them times that I went broke she couldn't depend on me
When I sleeping on the floor she could of slid on me

Gotta be careful who you love yeah
Cause that love will get you killed and your murderer will be somebody
you love for real
It be the ones you put your trust in that hurt you in purpose
Of this how love supposed to feel
I don't wanna feel it all I rather be all alone
Ain't no live left over here
Show me love if it's real ugh
