

Residue

Derez De'Shon

Bitch, I ain't buyin' no Birkin
I got a forty and a Perc'
She know my style, I want dirty
A thousand a line when I'm thirsty
DUI when I'm drivin', no swervin'
You know what it's worth and you ain't gotta steer it
I get high, out the sky, I might cop me a Tesla and fly me a bitch in on Spirit
Or take off like a jet
Shit that you do when you get you a check
Takin' on bets
She do what I tell her when she on the X
Slippery when wet
That pussy a demon, jump in it and wreck
And that head is a blessin'
She suck that dick clean and she swallow the mess

I got old money with residue
All these money bands, I just might go federal
But I stay ten steps ahead of you
Gotta watch what I say 'cause I never know who they gon' tell it to
Snackin' on edibles
Nigga try, think I'm high, he gon' die or end up livin' vegetable
Put you on schedule
I sign all the checks and make sure that they legible

That money got residue on it
That money got residue on it

That money got residue
I came up juggin' right on 2nd Avenue
Still throwin' play to my dog like collateral
Puttin' that shit on, I'm in Louis V casual
Love when you down, when you up they be mad at you
Work for me, come and get you a salary
Dusty money, it fuck with my allergies
I got new money, stiff as a mannequin
Put on a show 'long as I get the hammer in
I put the truck in the front end
We want the front and back end
Watchin' my shoulder, no lackin'
I'm smokin' green from the Bay not the Packers
'Cause I'm tryna go faster, they hustlin' backwards
Know some nigga who hungry, they'll still rob the pastor
I'm for that money, it be a disaster, tragic
Play with the gang and I'm lettin' 'em have it
I'm in here fresh off a plane and I'm spazzin'
Haters ain't built so they never could last
I'm countin' up, blown' Za out the bag
Brand new interior, watch where you ash
It weigh on my mental, the gang on my back

Like The Fast and the Furious, I do the dash
Talkin' 'bout them racks, I'm runnin' laps

That money got residue on it
That money got residue on it, yeah
