

What Dey Gon Say

Derez De'Shon

Remember days I used to wake up on the sofa
L'Eggo my Eggo, roaches racin' out the toaster
Shoestring wrapped around my waist to hold my clothes up
Niggas on and every day I wanna roast 'em (hell nah)
Quick to beat a nigga ass 'bout all that jokin'
Ain't lettin' no nigga play with me, my mama know that
Everything ain't go the way that it was supposed to
Knew it would be okay one day 'cause I'ma blow up
I really wanna know what these folks gon' say now
'Cause they can't say we broke because we paid now
And we can't keep these hoes up out our face now
Celebrating, make a toast when we drank now

I wonder what they gon' say
When the money ain't the topic 'cause they know a nigga got it
And I know they gon' hate
These niggas act like they my partner but I know these niggas plottin
g
I can see it in they face
These niggas envy me and jealous and I swear that shit be hurtin'
Swear I came a long way
I'm thanking God every day, he gave me more than I deserve
And I know they gon' hate

Yeah you know the money come with problems
And you know the problems come with choppers
You know they gon' hate so fuck what a nigga gon' say
Yeah we ain't letting a damn thing stop us
Came from the bottom, they weren't worried about us
They only on my dick 'cause they see a nigga poppin'
I knew I was the shit when I was sleeping on the carpet
Couldn't pay the rent, got evicted out the 'partment
It ain't starting make sense 'til it started making cents
I remember counting change, yeah, quarters, nickels, pennies
It started as a dream, never thought that I would live it
It was all a dream, got me feeling like Biggie

I wonder what they gon' say
When the money ain't the topic 'cause they know a nigga got it
And I know they gon' hate
These niggas act like they my partner but I know these niggas plottin
g
I can see it in they face
These niggas envy me and jealous and I swear that shit be hurtin'
Swear I came a long way
I'm thanking God every day, he gave me more than I deserve
And I know they gon' hate
And I know they gon' hate
And I know they gon' hate
