

Something to Someone

Dermot Kennedy

There's lessons in love sometimes
The heart is but a winding road
So this story goes

I get scared of the dark and I
I never even noticed rooms
Were made bright by you

Oh, you loved me more than anyone
Yeah, we were up so high
We were lost when we were young, but
You were mine

Once upon a time
You were by my side
I wish I could've known
That I should hold on tight
To every single word
To every summer night
I wish I could've known
That forever was a lie

But once upon a time
I was something to someone
Once upon a time
I was something to someone

See your shape under gold street lights
But every time I'm close, you move
And I'm just left with the truth

Oh, you loved me more than anyone
Yeah, we were up so high
We were lost when we were young, but
You were mine

Once upon a time
You were by my side
I wish I could've known
That I should hold on tight
To every single word
To every summer night
I wish I could've known
That forever was a lie

But once upon a time
I was something to someone
Once upon a time
I was something to someone

Something to you
Something to you

Once upon a time
You were by my side
I wish I could've known
That I should hold on tight

To every single word
To every summer night
I wish I could've known
That forever was a lie

But once upon a time
I was something to someone
Once upon a time
I was something to someone

Something to you
(I was something to someone)
Something to you
(I was something to someone)

Ooh-ooh, ooh-ooh
Ooh-ooh, ooh-ooh
