

Lost Highway

Deryl Dodd

LOST HIGHWAY

DERYL DODD

My daddy told me son remember
Come what may you've gotta stand your ground
But he never told me about a woman
And how she'd take my life somehow
The day I told her that i loved her
And I gave my heart away
Down a lonesome road of endless sorrow
I've drifted on a lost highway

Chorus

Now I know not where I'm going
Or where I'll be from day to day
The only thing I know for certain
I'm forever on a lost highway

This road I'm on is black with darkness
With no shelter from the rain
There's a cold wind always blowin'
And my heart is filled with pain
My body trembles when i picture
A memory that still remains
Someday I'll sleep not to awaken
And I'll be free of this lost highway

Repeat chorus
