Finding the courage to be brave
Keeping the faith can be hard
Love is the drug you crave
Love is the drug

Do you know there's a map inside your heart?
With directions showing you where to start
What's your mission will you find the gold?
The clock is ticking the wind is blowing cold
Will you make it or will you give in, lacking patience you need
the will to win
Go 'head and try it what have you gotta lose
You'll feel happy; instead it's up to you to choose

Fake it, 'til you make a change, it's gon' feel weird, it's gon'
' feel strange
Go 'head and try it what you gotta lose
You'll feel happy 'stead of feeling blue

How you doing? Notice something new?
All your wishes are coming into view
You hear the clapping - the sound of the applause
You're a hero - a champion for your cause

Fake it, 'til you make a change, it's gon' feel weird, it's gon'
' feel strange

Go 'head and try it what you gotta lose
You'll feel happy 'stead of feeling blue

Fake it, 'til you make a change, it's gon' feel weird, it's gon'
' feel strange
Try it what you gotta lose
You'll feel happy, happy happy happy happy happy
