

# Nothing I Can Do

Des'ree

You say that the love has gone  
You say you don't wanna carry on  
You say you that it's messing with your head  
You say you don't want me in your bed

You say that you need more space  
You say that you don't want me in your face  
You say that you don't want to try again  
You say that it's causing too much pain

Is there nothing I can do to save you from walking away  
Nothing I can do to persuade you it was all a mistake  
I'll do anything to convince you that we need more time  
Is there nothing I can do nothing I can try

You say that it's no surprise  
You say you could see it in my eyes  
You say that it's tearing you apart  
You say it's the breaking of your heart

Is there nothing I can do to save you from walking away  
Nothing I can do to persuade you it was all a mistake

I'll, I'll do anything to convince you that we need more time  
Is there nothing I can do, nothing I can try

I'll do most anything but I won't be a fool  
I know your suffering, I'm suffering too

You say that the love has gone  
You say you don't want to carry on  
You say that it's messing with your head  
You say you don't want me in your bed

Is there nothing I can do to save you from walking away  
Nothing I can do to persuade you it was all a mistake  
I'll, I'll do anything to convince you that we need more time  
Is there nothing I can do, nothing I can try

Please don't walk away  
One more hour give me one more day  
Cause I can't bear to hear you say  
Hear you say goodbye
