

Don't Hurt Me

Des Rocs

There's something in the way you smile
Whatever you call it
That blows me up like a missile

But now is not the perfect time
To say I was lonely
To say I wanted the trouble

I picked stars and stones
One hurts and one glows
I bet you think love is
None of your business
None of your business

Baby, don't hurt me baby
Don't hurt me

I would brave the darkest night
To make you a promise
Oh that's some real cruel devotion

I picked stars and stones
One hurts and one glows
I bet you think love is
None of your business
None of your business

Baby, don't hurt me baby
Don't hurt me

Gave me pain, gave me sorrow
Tried to cry you away
But Baby
We're gonna say

Baby, don't hurt me baby
Don't hurt me
