

Rabbit Hole

Des Rocs

Tell me babe
In the morning do you think I'll be okay?
That everything will feel normal again
Or am I stuck this way for another evening?
Just let me fade away, you know I got my reasons

I'm falling down the rabbit hole
Farther than I've been before
And my only thought is you
And the things we'll never do

I'm falling down the rabbit hole
But you won't let me go alone
My world is turning blue
I never meant to hurt you too

Oh you think it's in my head
But you don't wanna say so
Lying in the bed
It all just feels so complicated

Holidays, they don't hit the same
Mama says look at me, I don't understand the anesthetics
Maybe not now but one day you'll regret it
You're whole life is ahead I hope you got to see it

I'm falling down the rabbit hole
Farther than I've been before
And my only thought is you
And the things we'll never do

I'm falling down the rabbit hole
But you won't let me go alone
Now my world is turning blue
I never meant to hurt you too

Oh you think it's in my head
But you don't wanna say so
Lying in the bed
It all just feels so complicated

Tell me babe
In the morning do you think I'll be okay?
That everything will feel normal again
