

This Is Our Life

Des Rocs

I'm gonna make ya understand this pain
Time keeps slipping, hours turn to days

Does the sight of a grave make you feel all alone?
We're all right, we're okay, face a fear, the unknown
What's it like to be brave when a tear starts to flow?
I've seen worse, I've seen worse, I've seen worse, I've seen worse
I've seen worse

This is our life
This is when no one else will listen to ya
This is our life
This is when everyone is vicious to ya

I gotta keep these dreams locked in my cage
Lies we keep teaching on every single page

Does the sight of a grave make you feel all alone?
We're all right, we're okay, face a fear, the unknown
What's it like to be brave when a tear starts to flow?
I've seen worse, I've seen worse, I've seen worse, I've seen worse
I've seen worse

This is our life
This is when no one else will listen to ya
This is our life
This is when everyone is vicious to ya

Does the sight of a grave make you feel all alone?
We're all right, we're okay, face a fear, the unknown
What's it like to be brave when a tear starts to flow?
I've seen worse, I've seen worse, I've seen worse, I've seen worse
I've seen worse

You kick me in the teeth
I'll get right back up
But you keep this shit up, kid
'Cause I've seen what's worse

This is our life
This is when no one else will listen to ya
This is our life
This is when everyone is vicious to ya
