

Wayne

Des Rocs

Just call me Wayne
And I'll run, run, run 'til the grave
Cause the day I rest, is the day I'm dead
And we'll all go down in flames

I got your money honey, show me where to bleed
I wanna feed the monster I caught in your dreams
Hands down I'll show them all what I can do one day
If I'm a star, I'll be my own worst enemy

Good days and bad days
They all feel the same
And if it kills me
You're gonna know my name, name, name, name

Now I'm afraid to sleep at night
Those who love me never felt the light
Haunted by the darkest sky
Tell me, who the hell am I?
Tell me, who the hell am I?

Just call me Wayne
And I'll run, run, run 'til the grave
Cause the day I rest, is the day I'm dead
And we'll all go down in flames

The happy moments they are far and few between
I thought east river blues would cure our misery
Only in New York can you wish someone away
So daddy long leg make it short and make it sweet

Good days and bad days
They all feel the same
And if it kills me
You're gonna know my name, name, name, name

Now I'm afraid to sleep at night
Those who love me never felt the light
Haunted by the darkest sky
Tell me, who the hell am I?
(Haunted by the darkest sky)
(Haunted by the darkest sky)
(Haunted by the darkest sky)
Tell me, who the hell am I?

Just call me Wayne
And I'll run, run, run 'til the grave
Cause the day I rest, is the day I'm dead
And we'll all go down in flames

And we'll all go down in flames

Just call me Wayne
And I'll run, run, run 'til the grave
Cause the day I rest, is the day I'm dead
And we'll all go down in flames
