Pervert

Descendents

Don't you think it's time I let you know Don't you think I should before you go I'm not gonna let you get away Cuz I want to fuck you night and day I'm a pervert

I like to go out on dates See a movie communicate We'll go home and have some fun I'll tell you sure you're the only one Then when I leave your house I smell of sex

Then I know I'm a pervert because I like it Then I know I'm perverted because I want it Want it all of the time

Don't you sometimes wonder what I want Don't you sometimes think I just want your cunt I'd hate to think that romance is just a pose But all I want to do is rip off your clothes I'm a pervert

I like to hold you in my arms You know I wouldn't do you harm I never take advantage in my book that's a sin But somehow I find myself caressing your skin Then there's one word on my mind and that word is fuck
