

# You Can Go Home

Desert Rose Band

I went back to my hometown  
Christmas snow was on the ground  
Saw the girl who used to be  
Everything in the world to me

We went down to my old school  
Walked the halls remembering the rules  
Thought of friends who used to be  
Everything in the world to me

My family moved far away  
We never did return  
That girl found someone else to love  
Here's the one thing that I learned

You can go home  
And that's a fact  
You can go home  
But you can't go back

Saw the house where she used to live  
Saw the park where we first kissed  
Saw the dream that used to be  
Everything in the world to me

Everything in the world to me  
Now just a faded memory  
All these years  
I heard it callin' me

You can go home  
And that's a fact  
You can go home  
But you can't go back

You can go home  
And that's a fact, that's a fact  
You can go home  
But you can't go back
