We in the party intoxicated  
She bent over all kinda wasted

Big diamonds all kind of faces  
Shine and bright around the places  
Let this lean put me in the Matrix  
She like how she feelin', she like how it taste  
She make it feel good when I'm wasted  
I don't know nothin' but automatics  
Niggas run up on you let you have it  
Chopper hit 'em brtt, static  
My young boys yeah they savage  
How you say you the big homie  
And you [?] cop weed from me  
Five dollars what you need from me  
Gave it to you 'cause you need it, homie  
Now I'm chillin' at the afterparty  
And I'm here I ain't have to party  
Now you dig, nigga now you saw it  
You can stay here but just keep it quiet  
'Cause my niggas they come alive  
I [?] to the Shake Shack  
But I spin your block with like five guys  
Don't believe me, nigga let you try  
[?] nigga let you ride  
See my posters up on Instagram  
See a kid, you a family man  
Sixteen shots like a family jam  
I hope y'all niggas really get it, man  
Damn they ain't even understand
