Started broke, then we got rich  
This Glock 40 came with a beamer  
Had 20k on me, they raided my shit  
I've been throwing up 30's the first day you seen me  
I woke up and went to Prada  
I called up Desiigner, my neck and wrist freezing  
I got the drop on them niggas that plotted  
Whenever we catch them, that's where we gon' leave 'em  
Stack all the fifty's and hunnid's, the ten's and the twenty's, I get them,  
[?]  
I jump out the whip, take a pic with my gun  
I got so much to pitch, I can't leave till it's done  
I bought a brand new 600  
I hired a driver so I can get blunted  
Go have your baby momma found in the trunk, that's some foreign shit  
Talk 'bout that life, you don't want it  
I'm kickin' shit, like I'm puntin'  
She thought I was cute, I put dick in her stomach  
Dick in her mouth, then I went on the 'gram and I liked a picture of her kis  
sin' her husband  
[?], I'm dippin' and runnin'  
Flippin and tumblin, that's just the push of a button  
Take care of my kid and my cousins  
End of discussion, I'm not tryna get rich for nothin'

First, you get that bag, huh  
Then you get that bitch, huh
