

Personal Possession

Desmond Dekker

You're mine alone
You are my personal possession
My very own

Nobody else must kiss you but me
Nobody else must miss you but me
Nobody must dream of you but me
And nobody else must love you but me

You're my personal possession
That's what you are
You're my magnificent obsession
My lucky star

I own you exclusively
Darling you belong to me
You're my personal possession
My precious love

(Nobody else must kiss you but me)
(Nobody else must miss you but me)
(Nobody must dream of you but me)
And nobody else must love you but me

You're my personal possession
That's what you are
You're my magnificent obsession
My lucky star

I own you exclusively
Darling you belong to me
You're my personal possession
My precious love

You're mine alone
You are my personal possession
