

## Light Speed

Despised Icon

No time to lose. Pick up the pace  
Can't keep up, always fucking late  
No time to spare. Out of my way  
My livelihood is at stake

On the grind, always  
On the grind, onward  
The wheels are in motion  
Smashing doors wide open  
Run for my life  
Won't skip a beat  
I will reach light speed  
There's no rest...

No time to waste. Back on my game  
In a state of emergency  
So many things left unchecked on my list  
All these thoughts rushing through my head  
For my art, I have bled

On the grind, always  
On the grind, onward  
The wheels are in motion  
Smashing doors wide open  
Run for my life  
Won't skip a beat  
I will reach light speed  
There's no rest for the wicked

I'm burning the candle by both ends  
Burning by both ends  
Balance, I will achieve  
At peace with all the chaos  
Demons, please set me free  
I'm burning the candle by both ends  
Burning by both ends

Here we go  
No, I won't fold now or it will all have been in vain  
Oh, I've gone this far  
Can't walk away  
Find strength in adversity  
Through pain, a passage into forlorn  
I will be reborn  
Won't skip a beat  
I will reach light speed
