

Obsessive Compulsive Disaster

Despised Icon

Red flags and black clouds are all around

My mask of sanity's slowly slipping away
Crippling anxiety, I've lost my way

Red flags and black clouds are all around
Red flags and black clouds are all around

Confusion's in the air, an everlasting fog
In the jaws of despair, a rabid dog

Obsessive compulsive disaster
Obsessive compulsive
Back to square one and I've had enough

Obsessive compulsive disaster
Obsessive compulsive
Once and for all, I will regain control

A cleansing of the soul

I will change my fate
One nail at a time (Time)
I will change my fate
I will face what dwells in my mind
One nail at a time (Time)
'Til the coffin's sealed
Bury my former self
One nail at a time (Time)
I will change my fate
I will face what dwells in my mind
One nail at a time (Time)
'Til the coffin's sealed
Bury my former self
Repose En Paix

The omnipresence of worst case scenarios
A steady pull from the undertow
Paralyzed, acute frostbite
The warmth of light will heal and guide me to let go

Obsessive compulsive disaster
Obsessive compulsive
Back to square one and I've had enough

Obsessive compulsive disaster
Obsessive compulsive
Once and for all, I will regain control

Take my motherfucking life back
Life back
Stuck in a pattern
Sharp edges on every corner
I'm seeing red
Stuck in a pattern
Sharp edges on every corner
I'm seeing red

I will change my fate
One nail at a time (Time)
I will change my fate
I will face what dwells in my mind
One nail at a time (Time)
'Til the coffin's sealed
Bury my former self
One nail at a time (Time)
I will change my fate
I will face what dwells in my mind
One nail at a time (Time)
'Til the coffin's sealed
