

Running water
Standing wave
I'm looking at what must be your pet hurricane
Got you so spun
No break from the rain
Her roof held off your floor by just a trembling windowpane
Maybe that ringing in your ears
Is just her bell around your neck
And with a smoke ring on her finger
She goes and signals for the check
Dolce & Gabbana
Sodom and Gomorrah
Broken link in bio
Can't tell the hunger from the boredom anymore

It looks like she loved you to pieces
Seems she's been having the time of your life
It looks like she loved you to pieces
But time
Is on nobody's side

Her double take
And single give
She's out of pocket
Running numbers—not my business
But I can see how broke you're going
Every time I visit
This life of yours passing just—just as fast as she can live it

Sodom and Gomorrah
Broken link in bio
Can't tell the hunger from the boredom anymore

You can't save your youth
For later, so
Take all you that you can carry and
Time is on nobody's side

It looks like she loved you to pieces
Seems she's been having the time of your life
It looks like she loved you to pieces
But time
Is on nobody's side

It's not too late
Til you say it is
Kingdoms come, kingdoms go
You don't have to be brave
To lift your face to this
I'll be your yes among no's
It's not too late
Til you say it is
I'll be your yes among no's
Kingdoms come, kingdoms go
You don't have to be brave
To lift your face to this
