

## Say When

Dessa

Here in my paper crown  
With a glass of flat champagne  
I'd spar another round  
But I'm the only one who's still awake  
Oh, say when, say when  
And I'm headed towards the shallows  
Looks like I won again  
Another medal on the shelf  
I guess my record stands  
But I can't quit until I play myself  
Oh, say when, say when

I'm swinging on my shadow

Oh say when, say when  
Tell me  
Oh say when, say when

I can't say what  
Would be enough  
I'm not so sure  
This is the good fight anymore  
To unlace is tough  
With both hands in gloves  
The good fight, the good  
Fight anymore

I don't let go  
I don't give in  
I don't bow  
I don't bend  
I won't say no  
I won't say when  
I fold for no one  
And I, I always win

Oh say when, say when
