

DAY DREAM

Destin Conrad

You were somewhere in my day dream
Movin' closer with every heartbeat
I remember now, you didn't say goodbye
How could you leave me high and dry?

(You were somewhere in my day dream)
(Movin' closer with every heartbeat)
(I remember now, you didn't say goodbye)
(How could you leave me high and dry?)

Don't wake me up, just humour me this one time
Is it just like you remember?
Is it just like you remember?
Is it just like you (Remember)?
'Cause baby I remember
All those nights when we was laid up in my bedroom
You were so familiar, now you feel so different
You was in my dream and boy I can't seem to forget you
I missed how you touched upon and sexed me with precision
(Hm) precision
Babe I know your ex and all them niggas that you dealt with
Know I'm something different, don't gotta' speak just listen
(Baby, you were)

You were somewhere in my day dream
Movin' closer with every heartbeat
I remember now, you didn't say goodbye
How could you leave me high and dry?
