

DELUSIONAL

Destin Conrad

Hey baby, haven't spoken to you in a week
Know you're back in Atlanta
Know you got a nigga that you've been with
Probably live with him
If you didn't probably would have been hit
Kind of embarrassed
Something about the way you saw me in the club
Spoke to me
Got me weak anyway

Let's cut to the chase
I wanna kiss
I wanna touch
I wanna love on you
Know it's been a couple days but I'm feining for you
Got drugs on it
You remind me of somebody I know
Kind of different though
And your game is so original baby

Want you
Please boy
Let me please you
All the way
Take you there
Says he got a man
But I think I don't care
Tonight I feel delusional delusional

Want you
Please boy
Let me please you
All the way
Take you there
Says he got a man
But I think I don't care
Tonight I feel delusional delusional

Usually I could hold off
But you staring me down across the room
Baby ain't the type to do what you trying to do
Baby play cool
You ain't gotta lie and say y'all on a break
Baby it's okay
You was gonna do it anyway
Know you gunning for that nigga anyday
Don't know your body what you finna say
Know you can't take me where you stay anyway
We gotta slow down
This shit can't go down no

Want you
Please boy
Let me please you
All the way
Take you there
Says he got a man but I think I don't care

Tonight I feel delusional delusional

Want you

Please boy

Let me please you

All the way

Take you there

Says he got a man but I think I don't care

Tonight I feel delusional delusional
