

drifting

Destin Conrad

Feels like summer and November
Smell the cigarettes on your breath
When it went to the movies
And watched the film we didn't get

I don't recall the way you couldn't stay
But I remember the look on your face
When you tripped over three words you couldn't say, say, say
I don't recall us driftin' away

I don't recall every sacrifice
I don't recall any cheats
I don't recall you playing your games
But I recall you driftin'
I recall you driftin'
I recall you driftin' away
