

LUV N DEVOTION

Destin Conrad

All my love and devotion (All my love)
All my love and devotion

Oh-ooh, since I've been meditating
From a distance, I've been movin' slow (Slow)
You my one weakness
When around, you lose my self-control
Can we revisit this when night gets over? (It's over)
Feelings I thought that I was over
Got me being wasted and open

It's not my decision, I fight
Submission, I try to act like I'm wireless
We both know that's not since
I could wish that it's right
A mission to find the light in your darkness
We both love ourselves to cause it
'Cause that won't stop me from givin' you

All my love and devotion (All my love)
All my love and devotion

If we do this one more time
Promise to me that it's gon' be one more time
'Cause my heart can't take this for real
I can be gently for real, we can keep breakin' this deal (No, no)
After all this time, you still just as fine to me (Ooh, oh-ooh)

It's not my decision, I fight
Submission, I try to act like I'm wireless
We both know that's not since
I could wish that it's right
A mission to find the light in your darkness
We both love ourselves to cause it
'Cause that won't stop me from givin' you

All my love and devotion (All my love)
All my love and devotion
