Ayy

Tell me what I gotta do if I you makin' me feel all kind of ways?
Every time that I move closer, you turn the other way
And I know you fire but you complacent and you ain't shit
But I miss you, can I say this?
When you play this
Do you reminisce on times that we would lay up
Miss your scent on top of mine
When we fuck, I feel a way (Fuck, I feel a way)
Wanna sex you all the time, you don't believe me
Don't leave me and lead me on (Yeah)

Tell me what I gotta do if I need to convince you I'm not playing?
Every time I make moves, you don't really say much and it should drain me
Mm, but I'm patient
'Cause I know you get this every day
But I will chase it like I'm racing
Then embrace it
And treat you like the goddess that you are
You're the baddest that I seen, I'm not just talking by the bar
You don't believe me? (Ooh-ooh, ah)
Girl, I need thee (Ah-ah, ah)
Oh, I need thee (Ah-ah)

Oh, I could put my pride and that aside (I could put my pride and that aside
)
When I'm at the top, I want you laying by my side (I just want you laying by
my side)
You can take your time with me, confide in me
I'll show you what I'm 'bout
Just try to be
For me (Babe)

Open, open (Open, babe)
Open, open (Let your guard down, we should start now to be)
(You should let your guard down for me)
Open, open (Open)
Open, yeah

Something's in the water, I've been tryna dive in (Dip)
Meet me in the middle and I ain't just talkin' splits (Splits)
Won't you open
Can't keep these feels for you inside of me, girl
So if you want the key, girl
Girl, you could ride it, no lease
Slow mo' or full speed, just give me the green (You know)
So when you're ready for my love
(No need to put a rush) Ooh
Baby, just don't leave me guessin', no, oh, oh-oh

I can put my pride and that aside (I can put my pride and that aside)
When I'm at the top, I want you laying by my side (My side)
You can take your time with me, confide in me
I'll show you what I'm 'bout
Just try to be, yeah
For me (Open up to me)

Open, open (Ooh)
Open, open (Let your guard down, we should start now to be)
Open (Open), open (Open up)
Open, yeah

Let your guard down for me
Yeah
Baby, open with me
Just be open with me, babe
Yeah
Open up to me
