

SOFT SIDE

Destin Conrad

Soft side

I wasn't aware what we had in common
What he got to say, he gon' say it with his chest
If we take it there, would that make it too real?
Don't know what to say, hell if I know

Know my shit bump, I don't need a record deal
I just wanna smoke, where's the fronto?
Niggas on my body but you know where I'm at with it
I wish you was here, but you not though

Fuck it, I'ma ball out, am I right?
You really lost me that night
And I wasn't found
Way too far gone

Baby, I wanna go there
If you don't mind taking me, we can ride
Under LED lights, feel like I'm floatin'
I really wanna bring you back to mine
They think that he got problems, they think he irate
I bring it out of him, I take him on a little date

Got a soft side
Got a soft side to him

Living single in the background while we fuck
Roberta Flack when it's time for making love
Love, love
Bergamot and cedar in the air
Hella tats on your chest now I'm here
Busy tryna read the signs
I guess the tough guy got a soft side

Got a soft side to him
Got a soft side
Got a soft side to him
Whoa

He's got a soft side, soft side, soft side, soft side
He's got a soft side, soft side
He's got a soft side, soft side, soft side, soft side
He's got a
