

# Can't Stand the Sight

Destinity

You have to believe me, and try to follow me  
Have you ever dreamed of killing?  
Your mind needs to be free and see its suffering  
Have you ever dreamed of bleeding?

You need to see, like me, the honesty  
I can't stand the sight of you - uh!

I had to kill you more than a hundred times  
I was afraid of myself when I woke up  
I thought about it, and understood my murderous hatred

Can't stand the sight of you  
You make me so sick  
Can't stand the sight of you  
A smell lies in your breath

[Guitar solo]

There was no turning back  
Acid was flowing into my veins

There was no turning back  
Acid was flowing into my veins

My hate teaches me happiness in life  
Learning not to waste time with my fucking hate

You have to believe me, and try to follow me  
Have you ever dreamed of killing?  
Your mind needs to be free and see its suffering  
Have you ever dreamed of bleeding?

You need to see, like me, the honesty  
I can't stand the sight of you - uh!

Where you failed, I won hate  
I won hate, I won hate itself  
(2x)

Can't stand the sight of you  
You make me so sick  
Can't stand the sight of you  
A smell lies in your breath

You have to believe me  
I'm the demon inside you  
Where you failed, I won  
Proud to be your role model  
I'm watching you inhaling this hate  
You have to believe me  
I'm the poison inside you  
Where you failed, I won  
Proud to be your role model  
I'm watching you inhaling this hate

Where you failed, I won hate

I won hate, I won hate itself

Where you failed, I won hate  
I won hate, I won hate itself

Can't stand the sight of you  
You make me so sick  
Can't stand the sight of you  
A smell lies in your breath

Can't stand the sight of you  
You make me so sick  
Can't stand the sight of you  
A smell lies in your breath
