

Make Up

Destiny Rogers

You don't apologize
I never swallow pride
I know I can't walk away
And you can't let it go
Why can't you draw the line?
Why can't I compromise?
Same old wake up to break up
And round and round we go

I'm sick of that cycle
No, I'm not a psycho
I really like you, I really like you, so

I've been thinking about last night
Watching you cry
Right through your make up
You're not blinking
You wanna fight
But not tonight
I wanna make up
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna

Make love like animals
Act like we're rational
I won't look you in the eyes
And you'll laugh at the floor
You're supernatural
I can't do casual
Lying in your bed again
Know we've been here before

I'm sick of that cycle
No, I'm not a psycho
I really like you, I really like you, so

I've been thinking about last night
Watching you cry
Right through your make up
You're not blinking
You wanna fight
But not tonight
I wanna make up
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I've been thinking about last night
Watching you cry
Right through your make up

I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna

I've been thinking about last night
Watching you cry
Right through your make up

You're not blinking
You wanna fight
But not tonight
I wanna make up
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I've been thinking about last night
Watching you cry
Right through your make up

I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
I know, I know, I know I do but do you wanna
