

Simon Say

Destiny Rogers

You know you can't say no to this
You know you can't say no to this
You gotta do it like Simon say (Simon say say)
You know I always get my way (get my way)

You know you can't say no to this
You know you can't say no to this
You gotta do it like Simon say (Simon say say)
You know I always get my way (get my way)

Nah nah nah like I'm spoiled
I pull up like I'm royal
Hate to t-t-tell yourself but you gon like I told ya
If I can't get my way, then I can't do nothin for ya
Hit the fade away tongue out, Michael Jordan (23)
Hit the dash, like magic
If you ball, then ball, don't pass
I just need the most and I just been on the road
I been been doin shows and I bet you gonna show up

Don't complicate this
It's gon go my way
End of the day, it's gon go my way
Cause'...

You know you can't say no to this
You know you can't say no to this
You gotta do it like Simon say (Simon say say)
You know I always get my way (get my way)

You know you can't say no to this
You know you can't say no to this
You gotta do it like Simon say (Simon say say)
You know I always get my way (get my way)

It ain't up for debate, and them hoes ain't the same
He gon do what I want, do whatever I say
It ain't up for debate, and them hoes ain't the same

You know you can't say no to this
You know you can't say no to this

You know I always get my way (get my way)

You know you can't say no to this
