

Wave

Destiny Rogers

One missed call turn into "Where you been?" (Yeah)
On the floor to you now
Telling me hardships that we was friends (Yeah)
See the tides changing now
You act like you're sure but now you start switching up
(Switchin', yeah)

Brought sand to the beach
Tryna swim
But you in too deep
Just might get far out
Lost at sea (Yeah)

I can feel that wave coming
I can feel that wave
I can feel that wave coming
I can feel that wave of emotions
We didn't notice
That wave
I can feel that wave
I can feel that wave coming
Wave coming
Oh-oh-oh-oh

You looked in my eyes and said it's love (Yeah)
Tryna anchor my heart
Are we taking this thing too serious? (Yeah)
There's a storm above us
Are you gon' guide me through all of this rain and this wind?
Let me know

Brought sand to the beach
Tryna swim
But you in too deep
Just might get far out
Lost at sea (Yeah)

I can feel that wave coming
I can feel that wave
I can feel that wave coming
I can feel that wave of emotions
We didn't notice
That wave
I can feel that wave
I can feel that wave coming (Oh yeah)
Wave coming
