

Bad Guy

Destroy Boys

I wanna spit on your face
Fall from grace
Yeah
I wanna make you see
All the pain you've caused me
I wanna bring you down
Take back my crown

Cause I'm tired of being the bad guy
Cause I'm tired of being the bad guy

I have you on your knees
Begging please
Don't come for me
I wanna make you see
All the pain that you've caused me
Psychologically

Cause I'm tired of being the bad guy
Cause I'm tired of being the bad guy

I wanna make you see
All the pain that you've caused me
Psychologically

You're so fucking entitled
High expectations for your false idol
Scared to talk to my face
But you want somebody's attention
So you scream my name
I'm not gonna make you change
You'll be the bad guy one day
Just wait
