Widow

Destroy Boys

Creep looking trying to score
A black widow on my floor
But I thought I closed my door
I thought I closed my door

Seep in, seep in right through the cracks
Smoke right through another pack
But I thought you'd never be back

Keep it away and leave me alone
I'm not throwing a romantic bone
I used to care but now I don't
Keep it away and leave me alone
I'm not throwing a romantic bone
I used to care but now I don't

Hop on a bottle and drift away
You never listen to what I say
You always said you regretted the day
Do you regret the day?

Seep in, seep in right through the cracks
Smoke right through another pack
But I thought you'd never be back

Keep it away and leave me alone
I'm not throwing a romantic bone
I used to care but now I don't
Keep it away and leave me alone
I'm not throwing a romantic bone
I used to care but now I don't

Keep it away and leave me alone
I'm not throwing a romantic bone
I used to care but now I don't
Keep it away, keep it away
You never listen to what I say
Keep it away and leave me alone
