Think I done got superpowers, I'm taking molly (Taking molly)  
This time don't need help, huh, just watch me (Huh, just watch me)  
I'm 'bout to roll one with the vibe and pick up drank  
I've been getting extra high, but I feel safe

Late night throwing a private party (Party)  
Yeah, yeah, it's me and my posse  
She just brought her friends, huh, they want me  
Yeah, this bitch say she wanna smoke and this one want some pills  
Take a long drive up the hill  
You can spend a night, you can chill  
When the smoke clear, it's still real (It's still real)  
When the smoke clear, I'm still here (I'm still here)

Shawty fell in love with me  
Shawty fell in love for the thrill  
Tryna find my way out here  
Tryna find a different way to feel  
In my dreams, I see bitches and dollar bills  
I wake up, I see bitches and dollar bills

I've been living rich, she wanna fuck me, she wanna feel me  
Found out that I'm lit, she wanna fuck me, she wanna kill me  
Keep bottling it in, I need to heal  
Thinking 'bout letting her win, that's what it is  
My redbones say, "Kiss"  
My left and right wrist frostbit  
Shawty ate me all the way up and then spit  
On God, she tryna suck me all day, she a tick  
Steph Curry with the bitches, shawty, shawty getting lit  
Yes, she popped a G6  
Then she gave me a kiss  
I love her vibe, I make her my bitch  
This not for everybody, huh, that give a shit
