

Yeah

She said she all the way down, yeah, she all the way
She going all the way down, she going all the way
This a moment right now, don't throw it all away
I can make the money shower
I be counting it up for days and plenty hours
I got hella weed, baby, I smoke by the pound
Whatever you want, you can get it right now
Whatever you want, you can get it right now

Check out my, check out my dripping
Came in the spot with the fire on me they said that I was tripp
in'
Can't leave the crib without fire
'Cause most of these niggas be creeping
Most of these niggas be tryna just catch a lick and I ain't goi

We having sticks, can't no one control that
I'm throwing fits and I can't control it
I'm talking about swag, talk about motion
Most of these nigga be so damn lame and so emotional
My baby kept tryna have sex on the airplane
I got too much money on me right now, it can't fit in my pants
I be sipping like way to much drink, I can't even stand
