

## safety (interlude)

Destroy Lonely

I been spending more on my safety  
I be spending more to live safely  
Thirty round all on the Glock  
And I'm reloading, ain't no safety  
Everytime I relocate I'm going brazy  
Roll up another one, I can't see shit, my vision hazy  
Honestly, I don't even care, my nigga, fuck you, pay me  
Everyday I'm working hard and all these niggas lazy  
The moon coming up  
I'm standing in my yard with a bankroll and my gun

I can't go nowhere without my cup and my blunt  
They ask me if it's fuck them all, nah, I don't see no one  
I don't shop at the mall, no, that's not where I spend my money  
Buying designer clothes, shawty, I'm way too in to stunting  
She got a glimpse of my ice so now she stunting  
Yeah, she got a glimpse of my life, yeah, I have fun  
Me and these niggas not alike, no, I get money  
No, me and these niggas not alike, no, they ain't nothin'  
Only seen her twice then she say she love me  
I gotta change my life, shawty, I gotta keep going  
I'm on the next flight, on my way out of here  
Nah, it's PJ every time, all my shit leer  
I just skipped the line like a young nigga had clear  
I been told you I'm trying, thought I had made that clear  
'Bout my gang I'm dying, let me make that clear  
'Bout my chains I'm dying, let me make that clear  
I keep the FN on my side, let me make that clear  
I been getting high for like the past 6 to 7 years  
Most of you niggas trash, and honestly, I been surpassing them  
Most of these bitches trash, I hit 'em once and then I'm passing them  
I been switched the swag up, I go Rockstar, I go Aerosmith  
I been switched the swag up, big ass pants, I go raver, nigga  
I'm in Paris, France fashion week, I walk a runway nigga  
Better not try it, you gon' die coming down that one way, nigga  
Think she get too fly, I think I might put her in some new Margiela  
These niggas think they fly, but honestly, I think I'm fresher  
And I been sipping way to much drank, I need a check up

I been spending more on my safety  
I been spending more to live safely  
Thirty round all on the Glock  
And I'm reloading, ain't no safety  
Everytime I relocate I'm going brazy  
Roll up another one, I can't see shit, my vision hazy  
Honestly, I don't even care, my nigga, fuck you, pay me  
Everyday I'm working hard and all these niggas lazy  
The moon coming up  
I'm standing in my yard with a bankroll and my gun

I'm standing in my yard with a cup and a blunt  
I'm standing in my yard and I ain't going for nothin'  
If the world end I'ma be the only nigga left  
I ain't even trying, dawg, I make this shit look easy, don't need hep  
I be designer down in all black so I call it stealth  
We done with the number nine and we put the undercover down, oh yes  
She look like a supermodel, I put Balenciaga all on her chest

We playing spin the bottle with a whole pint and I'm kissing the cup, oh yes  
I could never fall off, I got all this money on deck  
I been tryna shake them off, all these niggas on dick, pause  
Tryna shake them off all these bitches on dick, dawg  
Every time I drip, got to take a pic, check my fit, shawty  
Video vixen bitch, yeah, I got to hit pause  
If they come around with that shit, tell them folks we wasn't involved  
Use my neck and wrist to switch the seasons up, lil' bitch, it's fall  
You would think I went to school for hooping, all I know is ball  
I got a fashion addiction, every time I shop I want it all  
Bitch, I ain't no lil' boy, I'm on the top floor making business calls

Never sorry, not at all  
I'm pouring up promethazine, watching it dissolve  
The way I keep on sipping lean, I'll be high till tomorrow  
The way I keep on smoking weed, I can't even breathe at all

I been spending more on my safety  
I been spending more to live safely  
Thirty round all on the Glock  
And I'm reloading, ain't no safety  
Everytime I relocate I'm going brazy  
Roll up another one, I can't see shit, my vision hazy  
Honestly, I don't even care, my nigga, fuck you, pay me  
Everyday I'm working hard and all these niggas lazy

I been spending more on my safety  
I been spending more to live safely  
Thirty round all on the Glock  
And I'm reloading, ain't no safety  
Everytime I relocate I'm going brazy  
Roll up another one, I can't see shit, my vision hazy  
Honestly, I don't even care, my nigga, fuck you, pay me  
I just keep on working hard and all these niggas lazy
