And I couldn't get no sleep, had to catch me a flight

Damn, it feel like I'm stuck in the sky
Damn, I keep working, I don't get tired

That's not my main phone, that's just the side

Which one do I choose, dawg? I can't decide
Yeah, don't come outside

These blues hundreds my main, this lead is the side
And this is a real bad bitch, let that ho come inside

Don't try him or this shit get violent
This Margiela shit, whisper in libraries
Dollar signs, just keep 'em in silence
Damn, yeah, okay, aight

I'm touching so many racks, they think I signed
And I pay like forty-five bucks for a line

And these boys, they not tough, they not trying us
Just broke her back, made that bitch pick her spine up
And then I go buy her expensive designer
