

# King I Am

## Destroy Rebuild Until God Shows

You can feel the fear when I walk by  
Tail between your legs make 'em run and hide  
And I can see the pain pouring out your eyes  
I think I am finally, starting to feel like the king I am

Same place but the faces change  
It's contradicting got me feeling something kinda strange  
Done feeling like I'm fucking up  
Done feeling like I'm not enough  
Time to call your bluff  
Bring 'em in, hit 'em with an uppercut  
Walk tall just because I can  
Bring 'em in, hit 'em another one  
Finally starting to feel like the king I am

Like the king I am  
Walk tall like the king I am

We used to live in the sky  
We used to live in the sky  
But now I'm one of those  
Yeah now I'm one of 'em  
We used to live in the sky  
But now I'm one of 'em  
And I'm your favorite one

I am animal  
I am sacred beast  
I am [?]  
I am bringing out release  
I am everywhere  
I am what you see  
I am the chemical  
Swallow me down  
Swallow me down  
(Yeah, yeah, yeah)  
I am animal  
I am sacred beast  
I am [?]  
I am setting you free  
(Yeah, yeah, yeah)  
Whoo!

Like the king I am  
Like the king I-king I am  
Like the king I am  
(Sorry)

We used to live in the sky  
We used to live in the sky  
But now I'm one of those  
Yeah now I'm one of 'em  
We used to live in the sky  
But now I'm one of 'em  
And I'm your favorite one
