

Waiting On You

Destroy Rebuild Until God Shows

You left me when I needed you the most
You came and you went so quickly
Forgive me
Must've really struck a nerve with you, ah
Well you can get over yourself

When did our love grow cold
I never wanted it to end
Now I'm on my own
When is enough enough
I never wanted my life
To end up so rough

Waiting on you to come back to me
Waiting on you to come and say something

You told me I'm not worth saving
You said words that I'll strike from my heart
Love, watch me bleed
Love, watch me starve
Cause I can't wait to watch you fall apart

When did our love grow cold
I never wanted it to end
Now I'm on my own
When is enough enough
I never wanted my life
To end up so rough

Waiting on you to come back to me
Waiting on you to come and say something

When did our love grow cold
I never wanted it to end
Now I'm on my own
When is enough enough
I never wanted my life
To end up so rough

Waiting on you to come back to me
Waiting on you to come and say something
Waiting on you to come and say something
