

## I Materialize

Destroyer

I could've chased you down an alleyway  
I materialize with the fog  
I'm a dog on a chain  
I'm right here with the rain  
Don't believe me  
Just ask song 63, line 275

I took a pill to get well  
I'll see you in hell  
I'll see you around sometime  
There's a cold wind that blows  
And it never stops its blowing  
No, it never stops  
Never stops  
N-n-n-never stop
