

# No One Needs To Know

Destroyer

Men hold cabinets  
Women, covens  
Replace your pets before I throw them in the ovens  
How could we foresee getting so high?  
I never knew you'd ever be so low

You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you

Cool and calm, I pluck fruit from my palm  
And now I swear I'm never gonna see the lights now  
How many decrepit Spanish holidays  
Does it take before you blow it all away?  
Summers throw you, I know you  
I swear I'm never gonna see the lights now  
Spent our days in winter caves  
Where things they tend towards frozen  
Not an ideal spot for suffering fools so gladly

You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you  
You don't need to know  
I don't need to tell you

Films are forgettable, songs aren't
