

## Saw You at the Hospital

Destroyer

Saw you at the hospital  
Your mind was insane  
Your gown was on wrong in the rain  
Well, it's a trick, at least I think so  
I don't wanna know

Saw you at the Palace Hotel  
In your robes from hell  
On glass  
Your silhouette  
Says I'm not there yet  
But soon I'm going to be...  
Free at last

Saw you at the castle  
Your eyes were clearly insane and your robes undone

I'm around, so is she  
Do nothing till you hear from me, wasted beneath a landslide

Saw you at the hospital  
Your mind was on fire  
Your gowns were falling down  
Well it's a scene, at least we think so  
Well it's a scene, at least we think so  
Says the amplifiers to the snow

You watch 'em, you watch 'em glow...  
You watch 'em, you watch 'em glow...  
You watch 'em, you watch 'em glow...
