

## Solace's Bride

Destroyer

Solace's bride's been having second thoughts  
She's had some time to think it through  
Stars blink, stars go wild and expire  
Stars get made from fire

Solace's bride's been having second thoughts  
She's had some time to think it through  
Stars blink, stars go wild and expire  
Stars get made from fire

I stare at the sky so I know which way's up  
I drink my wine from a porcelain cup  
I fall down

Solace's bride's been having second thoughts  
She's had some time to think it through  
She's made up her mind but they're not gonna let her  
She doesn't want to get better  
She doesn't want to get better  
She doesn't want to get better  
She doesn't want to get better  
She's solace's bride
