Destruction

Life is a challenge, we are doomed to fail
We are overthinking how to prevail
The final enemy is just your inner self
Beat your own mind and no one else!

Scare, despair, and terror
Are a deadly error

ANGST - is the key, to get inside of me
ANGST - the phobia called fear, grim and severe

A.N.G.S.T.
This is the A.N.G.S.T.

Innate worry dictates our day
Born to be scared seems the human way
We waste away time living in suspicion
When risk and change should be our mission

Scare, despair, and terror
Are a deadly error
Panic, doubt, and fright
Fight the blight!

ANGST - is the key, to get inside of me
ANGST - the phobia called fear, grim and severe

A.N.G.S.T.

Scare tactics - the new now
We misuse the know-how
Spread doubt in minds full of hope
Numb of fear like zombies on dope

Operation angst - the puppet player
Creates a new you, layer by layer
Use time wisely - don't get stuck
Failing is the art to not give a fuck!

We torture our soul
A lifetime with concern
Go, go change your goal
Give your life a U-turn

ANGST - is the key, to get inside of me
ANGST - don't get caught, just a feeling, just a thought!
