

Brother of Cain

Destruction

gather some people and build a country
you cannot force me to be happy and free
gotta run away from where i was born to live
see the world while the world is watching me
national pride now i will follow you straight into death
wait for me with a knife - let the world see

why am i born to be brother of Cain
brother love ends in frustration
god loves me more than any other man
in a brother of Cain nation

brother of Cain - mother of pain
brother of Cain - my way of dying

if being not free means peace
then send me to prison
war comes with freedom
and life lacks of reason
