

# I Kill Children

## Destruction

if you go out fishing  
don't forget to stake the bait on the hook  
or you won't catch nothing-nothing  
there are things to remember  
life can be much easier than it looks  
if you recall the right things  
the world is bad  
but it's in your head  
if you feel like an accused  
but you're a grown-up now  
so act like one  
and be no more confused-confused  
if you go out sailing  
don't forget to watch the tide of the sea  
or you won't get nowhere-nowhere  
if you look for answers  
then why the hell do you believe in me  
when i want you to stay here  
and die here  
things aren't fine  
but it's in your mind  
if you're fucked-up and confused  
your childhood's gone  
and you're the next one  
to marry and reproduce  
i kill children, yes i will  
i kill children  
I kill children  
yes i will make you feel as dead as i feel  
if you go out angry  
trying to kill or be killed by me  
don't you know that i'm faster
