

# The Lonely Wolf

**Destruction**

It was one of those nights  
When it all goes downhill  
Out on the prowl  
Looking for a thrill

Numb with grief  
Hunting down the prey  
Fake relief  
Don't pray where you slay

The lonely wolf  
Deserted for a reason  
The lonely wolf  
It's hunting season

Nothing last forever  
Engraved on your tombstone  
Standing with the crowd is easy  
It takes courage to stand alone

Numb with grief  
Hunting down the prey  
Fake relief  
Don't pray where you slay

The lonely wolf  
Deserted for a reason  
The lonely wolf  
It's hunting season

Rude awakening  
No faith in humanity  
Self-destruction  
Nothing lasts forever

Numb with grief  
Hunting down the prey  
Fake relief  
Don't pray where you slay

The lonely wolf  
Deserted for a reason  
The lonely wolf  
It's hunting season  
The lonely wolf  
Pact with the devil  
The lonely wolf  
Ego state on a high-level
