## The Ravenous Beast

## Destruction

The greedly gullet of the bigwig nations Swallows all of our patience In unity they fool the poor Keen on cash like a cheap fucking whore They're misplaying their winning game Already forgot that we're all the same Their acting under our flag Awkward political greylag The ravenous beast The claws of evil ripping the credulous poor apart The statement of claim ignored by those with a blackheart Wrapped up in lies The ravenous beast Seems education didn't teach us well This ego mania leads into a bombshell Disgrace surrounds me on those lucky days Cause soon the world will be ablaze Only to give and to share luck Keeps the unprivileged away from running amok
