

## Total Disaster 2000

### Destruction

I was born in a dark winter night  
Thunder and lightning greeted me  
Now it's the time to begin to flight  
Kingdom of heaven, I can't see

My home is the bloody Hell  
At the place where Satan rules  
The world is now like a big shell  
The fire of Hell will destroy the fools

I can never trust the virgin preacher  
I can never believe in Jesus Christ  
It's all right, 'cause Satan is my teacher  
People hidden then when we arise!

I command and you get down on your knees  
We sacrifice infants on Satan's order  
Come taste blood, our living grease  
Headless bodies found, one is your daughter

I can never trust the virgin preacher  
I can never believe in Jesus Christ  
It's all right, 'cause Satan is my teacher  
People hidden then when we arise!
