

# Taste Of Tragedy

Desultory

Into the void of  
Accusation  
Into the point of  
No return

Give me a shelter  
From your rain  
The fall of anger  
Storm of pain  
Our surface breaks in  
Agony  
Your bitter voice tastes  
Tragedy

So here's the frozen silence  
The shadow of our lives  
The space between two spirits  
A child of our lies

Turn away  
Two shattered eyes in pain  
Life betrays  
Frustration of a dying flame  
Mind decays  
Words swallowed by the blame  
Fall astray  
Our feelings slowly fades

The taste of tragedy engulf  
The feelings that no longer lives

The thorn of disbelief  
Raping souls  
Our web of trust now  
Filled with holes  
Cold chains of everyday  
Bleeding scars  
Different living minds  
Drifting apart

So here's the frozen silence  
The shadow of our lives  
The space between two spirits  
A child of our lies
